- In the first round the player on the top of the scoresheet plays the first match, the player listed second plays the second match, and the player listed third plays the last match (if needed). If one team wins 2-0, the third player on the roster starts the next round (plays in Match # 1). In other words, the player with the least number of matches plays in Match # 1 of the next round. Players must play in the shooting order as printed on the scoresheet.
- Sudden Death will occur for any individual that match begins 2 hours after match start time. For that match, ball points will be doubled, i.e., 2 points for balls 1-8 and 4 points for the 9-Ball.
